ENSURE THAT THE TRACTOR IS OF THE CORRECT SPECIFICATION FOR THIS MACHINE. REFER TO THE OPERATOR INSTRUCTOR MANUAL BEFORE MAKING ANY ADJUSTMENTS!

This machine must be registered on www.mchale.net by the Dealer in order to qualify for Warranty!

1. Check that all accessories are with the Owner/Operator. Check Operators Instruction Manual and Parts Lists.	8. Check all manual & hydraulic functions.
2. Ensure device is re-assembled correctly. (Refer to all assembly instructions supplied)	9. Check for hydraulic leaks, both internal (Creep) and external.
3. Ensure that all items are properly installed and check all bolts & nuts are torqued correctly.	10. Check for smooth operation of all moving parts.
4. An adaptor frame may be necessary, when installing this device on a Loadall or Front-end loader.	11. Use extreme caution when working around sharp blades and tine-points.
5. Ensure safety arms and hydraulic hoses are fitted correctly, before coupling device to tractor/loader.	12. The operator must be fully aware of all hazards, controls (hydraulic), all functions & safety features of both this device and the tractor.
6. When mounted on a tractor check that the device is parallel with the ground. Adjust linkage if necessary.	13. Ensure that the owner/operator reads the operator instruction manual and understands fully all safety and operating aspects of this device, as described.
7. Connect hydraulic hosing to tractor/loader and ensure proper hydraulic setup.	14. Instruct operator on maintenance i.e. check mountings, adjustments and areas to be greased daily along with other routine functions.

I am satisfied that the above checks have been carried out, and that the machine is complete with all accessories and manuals.
