

## 1.1 Inspection on delivery by the dealer

Following delivery of the machine by the dealer, the dealer is obliged to carry out a handover inspection. This inspection has already been carried out in the manufacturer's work following production of the machine. Nevertheless, the customer must always be supplied with a loader which is in perfect working order.

Should one of the answers in the test list be a NO, this must be briefly explained in the "Comments" line. Minor repairs are to be carried out immediately.

The following work must be performed before handing over the machine:

- |   |  |
|---|--|
| <input type="checkbox"/> Grease all points of lubrication | <input type="checkbox"/> Check tyre pressure |
| <input type="checkbox"/> Tighten wheel nuts               | <input type="checkbox"/> Carry out trial run |

Check the following points during the handover inspection:

	yes	no		yes	no
Engine oil level OK?	<input type="checkbox"/>	<input type="checkbox"/>	Steering system OK?	<input type="checkbox"/>	<input type="checkbox"/>
Hydraulic oil level OK?	<input type="checkbox"/>	<input type="checkbox"/>	Lighting and fittings OK?	<input type="checkbox"/>	<input type="checkbox"/>
Starting lock OK?	<input type="checkbox"/>	<input type="checkbox"/>	Make sure all hoses are OK?	<input type="checkbox"/>	<input type="checkbox"/>
Brake system OK?	<input type="checkbox"/>	<input type="checkbox"/>	Safety belt OK?	<input type="checkbox"/>	<input type="checkbox"/>
Lubricant level OK?	<input type="checkbox"/>	<input type="checkbox"/>	Decals and paint OK?	<input type="checkbox"/>	<input type="checkbox"/>
Lubricant concentration OK?	<input type="checkbox"/>	<input type="checkbox"/>	Cab control elements (fan etc.) OK?	<input type="checkbox"/>	<input type="checkbox"/>
Hydraulic system OK?	<input type="checkbox"/>	<input type="checkbox"/>			
Load display OK?	<input type="checkbox"/>	<input type="checkbox"/>
